Thanks, Dusty. I took a look to be sure we don't have anything else in the area (which we don't), so BPA will not have a problem with this project.

Thanks for letting me take a look!

Greetings,

I was going through my continued review of the project below, and I noticed a detail I may have missed during my initial review of the project. It looks like the project itself is far from BPA ROW, but the 500+ acre parcel crosses your ROW. Wanted to make sure you are noticed just in case. A map showing the project and your ROW is attached, along with a link to information we have on the county server.
