Importance:	High

Good afternoon Dusty,

I'd like to follow up on this project briefly, and to inquire about the building permit that Kittitas County will need to issue – do you know if this was discussed within your department? This seems to have bearing on who is SEPA lead, since as per WAC 197-11-938 (4)(c) the need to issue that license/permit would still have Kittitas County as SEPA lead. I will be out of the office for a few days starting tomorrow, but will return on Tuesday at 7:30 am. If you would, please Cc or reply directly to my district manager (Rainer Hummel) on this matter.

Thank you,

Shane

Subject: SX-18-00003 Shoreline Exemption

Greetings. Considering that 1) the clearing is occurring outside of the shorelines buffer, and that 2) the thinning will occur consistent with RCW 90.58.150 and 3) the project is not associated with a Class IV application, the project can be exempted under the Kittitas SMP 6.9(B)(1-5) . Find attached the letter of exemption. Hard copies are in the mail to the applicant and agent.
