SPECIAL MEETING

DLR GROUP

COMMISSIONERS

At 1:06 p.m. Chairman Osiadacz called a Special Meeting to order meet with representatives from the DLR Group and the Management Team to review refining space needs of a proposed new Courthouse.

There was discussion and review of each department's space needs over the next 20 years, while giving consideration for employees who may be able to work from home to help lessen the space needs. Following a review of individual department's needs, it was estimated that 11,000 square feet had been reduced than what was originally submitted, which was very encouraging.

The Board asked all of the departments to go back and take another look at their space needs and see if there's any other way of paring it down even more, and to let Patti know.

The meeting was concluded at 2:43 p.m.
