Meeting called to order at 10:02am

Jesse Cox stepped to the microphone and reviewed the staff report requesting that the Board of Health and Board of County Commissioners approve the proposed changes to the Kittitas County Water Code. Arden Thomas stepped to the microphone and reviewed the language changes being considered for water mitigation regarding cistern water suppliers and short plat requirements for water. All the water codes with minimal changes or language change are listed below:

- 13.03.020- Cistern System
- 13.03.110-Individual Water System
- 13.03.XX-Road (New definition for Road added)
- 12.03.230-Water Quality Test
- 13.20.030-Notification
- 13.20.040-Well Location and Access
- 13.25.020-Applicability
- 13.25.080-Cistern System: Source Requirements
- 13.30.080-Group B Water System-Bonding
- 13.35.020-Applicability
- 13.40.010-Eligability

A copy of the redline water code was sent off to stakeholders in February. They were given thirty days to review and reply with any concerns or recommendations. Any recommendations were considered and/or incorporated into the redline document. Jesse reviewed all recommended changes and asked the board to approve the changes to the Kittitas County Water Code.

The group discussed some of the recommended changes and staff answered questions. Commissioner Wright asked for the definition of "Road" and questioned adequate water determination for platting and building process. Jesse addressed both questions.

Public comment open at 10:28 am

Fred Talerico stepped to the microphone and stated that he has a class B well and has recently received a bill for his well and wondered where the county was getting this fee from. There was nothing on the bill that states how much water was used and would like to be contacted with some information.
