

Minutes of  
Community Development Services

Study session

June 2, 2003

Those Present: Perry Huston

Also Present: Jim Hurson, Clay White, David Taylor and Catherine Dunn

**EFSEC**

Jim Hurson reported that he had finished the intervenor petition for the Zilkha Windpower project before EFSEC. David Taylor asked who would be signing it as the Board will be having an application before them. Perry Huston said that as they had directed staff to pursue this direction, he thought that they might be able to sign the petition.

It was decided that David Taylor would sign an affidavit for the petition and that the Deputy Prosecutor would sign the petition.

**Zilkha**

Clay White reported the progress with the Zilkha application. He said that the county has a paper trail showing everything that has been asked of Zilkha by the county and of the county by Zilkha.

Perry Huston asked if there was an application in at this time. White replied that Zilkha had submitted a new application but that he had not had time to review it so he didn't know whether it was a complete application.

**APPROVED**
