

KITTITAS COUNTY DEPARTMENT OF PUBLIC WORKS

Paul D. Bennett, P.E., Director

STUDY SESSION MINUTES

June 30, 2003

THOSE PRESENT: Max Golladay, Perry Huston, Bruce Coe, Paul Bennett, Kelly Carlson

SR903/BULLFROG INTERSECTION- Paul stated that the last public meeting for this project was held last week. The public was able to vote on all of the alternatives, and when it was all said and done, alternatives #4 & #9 received the most votes. Both #4 & #9 contain a roundabout. Paul said that these two alternatives will be included with the SEPA that will go out in mid-July. The Notice of Action will follow in August, and with BOCC approval we will move forward with design & right-of-way acquisition.

BURKE UPDATE: Paul stated that Gene Martin and the Burkes are corresponding back and forth about the work being done on the Ridgway project. Paul did a site visit and found that there is some dirt piled in the Burke's right-of-way but should be removed by the end of the week.

UMPTANUM ROAD- Paul updated the BOCC that the crew is putting Magnesium Chloride on Umptanum Road (Gravel Portion) in hopes that it will cut down the need for grading.

ROAD STANDARDS: Paul informed the BOCC that he has taken guidance from the Planning Commission and is putting together a package based upon their recommendations. Paul expects at least two more meetings before he can present the package to the BOCC for consideration.

Adjourned at 2:15

Paul D. Bennett, P.E.
