Public Health Emergency Management Duties

Brenda stated that based on previous discussions with the board they had asked to see total projections. Brenda stated that she anticipated revenues for 2010 to be around \$60,000 and part of the goals for the fire and life safety inspections is to see a reduction in hazards within businesses. Brenda then went over the projected revenues for 2011 based off of the business inspections at roughly 1000 of them. Allen stated that he had no further comments at this time, but this will be a topic for discussion at budget time. Brenda questioned getting out from under the grant monies from the Public Health grant. Commissioner Crankovich stated that after discussing this with the Public Health Administrator she would like to have another full time employee but that fire and life safety is the utmost importance of the fire Marshal and he is willing to consider it.

No action taken.

Burn Ban Revocation

Brenda stated that as of last week the fuel moisture content has gotten to where we normally are in October and the Fire Chiefs are lifting the burn ban with the exception of Fire District #8. Commissioner McClain informed Brenda she should speak to Brent about a legislative change so that she doesn't have to bring these items to the board. Commissioner Crankovich and Commissioner McClain concurred on lifting the burn ban at this time.

No action taken.
