He explained that there are a few sites that are repeat dump sites and that he would like to have a surveillance camera at those sites. He outlined what the process would look like from start to finish, including the end result of the County prosecuting the individual or individuals. Commissioner Crankovich questioned if there had been consideration given to the impacts on law enforcement. Commissioner O'Brien reminded Mr. Rivard of the retention requirements. Commissioner Crankovich questioned if the County applies and is awarded funding, can the funds be sent back if the project turns out to be more effort than it's worth.

Mr. Rivard was directed to get further details of what the storage requirements are for having the recordings retained appropriately, and report back to the BoCC.
