**AIRPORT MARKETING  
COMMITTEE UPDATE:**

Paul reported that the committee is working with the County to put together a package to present to the FAA which would allow the sale of some properties within the Bowers Field Industrial Park. Paul explained the original donation of the land to the County which prevents the sale of properties, and the need for flexibility in order to allow development. He stated that leasing as the sole option is an impediment to development. Paul added that development standards could be put in place to ensure aviation centered endeavors on the land. Kirk noted that the plan for the sale of land will be presented to the FAA, and with BOCC approval will move forward.

**Board Direction:**

**Move forward and present plan to the FAA.**
