**INFO. TECH**

Jim Goeben, IT Director explained that E-mail encryption is a service that the County has a need for. He stated that he did a poll of Departments that would have the need for the service and he received a report of 218 employees. He stated that after some research that the Microsoft Service the County currently has offers the additional service for \$14.00 per account (\$3,052.00 per year). He stated that he has it in his budget to cover it this year. He stated that there are requirements such as HIPPA that require the service to exchange confidential/protected materials.

The Board questioned the number of employees needing the service and asked Mr. Goeben to see if he could do another count that would possibly provide a lower number than the initial preliminary count of 218. The Board gave Mr. Goeben permission to move forward.

Mr. Goeben questioned the Board on what they would like to do with the Kiosk by the elevator. The Board gave Mr. Goeben permission to remove the kiosk.

Meeting adjourned at 10:10 a.m.
