Commissioner O'Brien proposed establishment of a committee to manage animals during emergencies and/or disasters. Undersheriff Myers concurred that the items noted in the proposal were all appropriate and beneficial to future evacuation needs; the use of committees is not conducive with the county adopted commitment to NIMS. Commissioner Berndt concurred that an amendment to the CEMP, specific to animal rescue, should be done. Undersheriff Myers advised he would have Commander Higashiyama work with Mickey Webb to develop structure and response language for the CEMP to implement the items in the proposal.
