**MAINTENACE**

Patti Johnson, Solid Waste Director/Project Manager/Interim-Maintenance Director requested the Board to authorize the purchase of a new devise that would change the "chimes" for alarms that go off in the IT Server room, so that the County staff can tell the difference between them and the Courthouse fire alarms. She stated that it will cost \$400.00.

The Board questioned whose budget would cover the expense. Ms. Johnson and Mr. Goeben indicated that neither of their budgets had it in there to cover the expense.

Commissioner O'Brien moved to approve the request, noting that it would be paid from the General Fund. He stated that he will support the request because of the support from the Fire Department, Maintenance Department, IT Department and the Security Committee. Chairman Berndt seconded. Motion carried 2-0.

Meeting adjourned at 10:00 a.m.
