

Mohar Rd

Mohar Rd between MP 1.90 and MP 2.01 looking west (2017)

Site Description

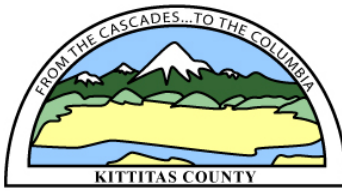

Mohar Rd is southwest of S. Cle Elum and an east-west Rural Minor Collector providing access to logging, recreation and agriculture. It connects Westside Rd to Upper Peoh Point Rd. The area of interest is just east of Westside Rd between MP 2.01 to MP 1.75

What's the Problem?

A settlement of Mohar Rd has caused dangerous road conditions with sags and humps along a steep and curvy portion of the road. In February 2018, county forces removed a portion of the pavement to bring the surface to gravel. This decision was made by the county after observation of eight inches of settlement had occurred over several weeks' time.

Project Description

This project proposes to identify the cause of the settlement of Mohar Rd that is creating humps and slumps in the roadway surface.

Funding Sources

Kittitas County Road Fund

Schedule

This project is in design phase.
