

ATTCHMENT B

Narrative project description (include as attachment): Please include at minimum the following information in your description: describe project size, location, water supply, sewage disposal and all qualitative features of the proposal; include every element of the proposal in the description.

This project is a boundary line adjustment to provide access from game Farm Road to parcel 28 of that document filed with Kittitas county otters office under AFN 201308260055 and 201010050029. The total project size is 49.02 acres and is located east of the intersection of Wilson Creek Road and Game Farm Road on Game Farm Road. Water supply will be provided by the game farm water system, sewage disposal will be through either on-site septic systems, large on-site septic systems, or a membrane bio reactor. There is no development, buildings, wells, dreenfields, or any other type of development on either one of these two parcels. These parcels are being used as farmland at this time.
