Thank you for the opportunity to review and comment, Jamey. Because it appears there will be no new ground disturbance other than some potential fill immediately adjacent to the existing barn, WDFW does not have concerns about impacts to fish or wildlife habitat. If there is additional disturbance, grading, filling, or clearing, we wish to be notified to review for potential impacts to fish and wildlife habitat conservation areas. We do recommend that waste disposal use bear proof containers to minimize the risks of wildlife conflicts associated with additional garbage onsite.

Please let me know how we can be of assistance and thanks again for the opportunity to comment, Jen
