Hello Bradley

The Snoqualmie Tribe [Tribe] is a federally recognized sovereign Indian Tribe. We were signatory to the Treaty of Point Elliott of 1855; we reserved certain rights and privileges and ceded certain lands to the United States. As a signatory to the Treaty of Point Elliot, the Tribe specifically reserved among other things, the right to fish at usual and accustomed areas and the “privilege of hunting and gathering roots and berries on open and unclaimed lands” off-reservation throughout the modern-day state of Washington.

Thank you for the opportunity to review and comment. Based on the information provided and our understanding of the project and its APE we have no substantive comments to offer at this time. However, please be aware that if the scope of the project or the parameters for defining the APE change we reserve the right to modify our current position.

Thank you

Adam Osbekoff  
Snoqualmie Indian Tribe  
Department of Archaeology and Historic Preservation

## Subdivision Comments

To: Bradley Gasawski, CDS Planner I

From: Dan Suggs, Environmental Health Specialist II

Date: 08/13/2024

RE: SP-24-00011 Lewis

Thank you for the opportunity to comment on the above-mentioned project regarding water and septic requirements to comply with Kittitas County Public Health Department's requirements.

	<b>Findings</b>
--	-----------------

### On Site Sewage

#### Finding 1

Lot B & Lot C have existing on-site septic systems. Proposed lot B & C will meet the minimum land area requirement for on-site sewage systems and individual wells. Proposed lot A & D are proposing on-site septic systems.

### Water

#### Finding 1

Lot B & C have existing individual wells currently serving individual residences. Proposed lot A & B will share the individual well located on 821 Busch Road (lot B). Proposed lot C & D will share the individual well located on 822 Busch Rd. (lot C).

<b>A</b>	<b>Additional Information Required (Prior to Preliminary Plat Approval)</b>
----------	---

- Soil logs are required to be recorded for lot A & D. Soil logs may be conducted by a professional engineer, licensed wastewater treatment system designer or KCPHD.
- The existing wells on lot B & C must be fifty feet from all roads and property lines. If the lot lines are not configured to allow a one-hundred-foot radius protection zone to fit within the lot lines, then a one-hundred-foot protection zone must be recorded on the plat.
- Adequate water supply determination is required for the proposed land use. The adequate water supply determination must include:
  - Valid shared well users agreement signed by both users of the well that is recorded

507 N. Nanum Street, St. 102 · Ellensburg, WA 98926

T: 509.962.7515 · F: 509.962.7581

[www.co.kittitas.wa.us/health/](http://www.co.kittitas.wa.us/health/)

with the county auditor.

- Passing water quality tests for coliform (within 1 year) and nitrates (3 years).
- A well log recorded within the last ten years or if a well log is not available a 4 hour draw down test. If the water source production is less than five gallons per minute, a water distribution system design must be submitted by a professional engineer.

<b>B</b>	<b>Final Plat Review &amp; Recording (Prior to Final Plat Approval)</b>
----------	---

**No additional information required.**

<b>C</b>	<b>Final Plat Notes</b>
----------	-------------------------

**No additional information required**

# KITTITAS COUNTY

## DEPARTMENT OF PUBLIC WORKS

### MEMORANDUM

**TO:** All Staff  
**FROM:** Public Works Plan Review Team  
**DATE:** August 22, 2024  
**SUBJECT:** SP-24-00011 Lewis

<b>ACCESS</b>	<ol style="list-style-type: none"><li>1. An approved access permit shall be required from the Kittitas County Department of Public Works prior to creating any new driveway access or altering an existing access.</li><li>2. Maintenance of driveway approaches shall be the responsibility of the owner whose property they serve. The County will not maintain accesses.</li><li>3. Any further subdivision or lots to be served by proposed access may result in further access requirements. See Kittitas County Road Standards.</li><li>4. New joint-use access easements shall be a minimum of 30' in width, new private road easements shall be a minimum of 50' in width.</li><li>5. In addition to the above-mentioned conditions, all applicable Kittitas County Road Standards apply to this proposal. Access is not guaranteed to any existing or created parcel on this application.</li></ol> <p>OFF NOTE: Please ensure that the existing parcels retain their addresses upon final recording of short plat. (JS)</p>
<b>ENGINEERING</b>	Except as exempted in KCC 14.05.060, no grading or filling upon a site involving more than one hundred (100) cubic yards shall be performed without a grading permit from the County Engineer or Public Works designee (KCC 14.05.050). An application for grading in excess of five hundred (500) cubic yards shall be accompanied by an engineered grading plan (KCC 14.05.080). (CP)
<b>SURVEY</b>	<p>The following review applies to the Prelim Short Plat only. Additional comments may address final submittal.</p> <ol style="list-style-type: none"><li>1. Submittal does not meet the requirements of WAC:332-130-145 Topographic elements on maps.</li><li>2. Proposed Lot B and Lot C do not appear to meet dimensional requirements per KCC 17.29.090.</li><li>3. A basis of bearing will need to be identified and noted.</li></ol> <p>FOR FINAL At a minimum, property corners will need to be set and shown on the map for the new boundaries.</p>

	<p>Please show the width and recording information for the existing easement through the middle of Lot A.</p> <p>OF NOTE Lot closures were not reviewed as part of this submittal. Lot Closures will be reviewed at final. Title report was reviewed as part of this submittal. Ownership and legal description is fine. (JT)</p>
<b>TRANSPORTATION CONCURRENCY</b>	No transportation concurrency requirement for this project. (KAH)
<b>FLOOD</b>	The proposed short plat is not located in a FEMA identified special flood hazard area (100-year floodplain). A floodplain development permit is not required for the project. (SC)
<b>WATER MITIGATION/ METERING</b>	<p>The following comments outline the requirements for legal availability of water and metering for the proposed short plat:</p> <p>The applicant must provide legal water availability for all new uses on the proposed lots of this project, which can be provided through mitigation certificates. Prior to final plat approval and recording, the following conditions shall be met:</p> <p>In accordance with KCC Chapter 13.35.027, the applicant shall provide one of the following documents before final plat approval:</p> <ol style="list-style-type: none"> <li>1. A letter from a water purveyor stating that the purveyor has adequate water rights and will provide the necessary water for the new use;</li> <li>2. An adequate water right for the proposed new use; or</li> <li>3. A certificate of water budget neutrality from the Department of Ecology or other adequate interest in water rights from a water bank.</li> </ol> <p>All applicants for land divisions shall also submit information on "proximate parcels" held in "common ownership" as those terms are defined in WAC 173-539A-030 and otherwise demonstrate how the proposed new use will not violate RCW 90.44.050 as currently existing or hereafter amended.</p> <p>Failure to obtain mitigation before commencement of an activity requiring mitigation shall be a code violation subject to enforcement under Title 18 KCC.</p> <p><b>Final Plat Notes</b></p> <p>The following notes shall be placed on the face of the plat:</p> <p>C-1 "Metering is required for all new uses of domestic water for residential well connections and usage must be recorded in a manner consistent with Kittitas County Code Chapter 13.35.027 and Ecology regulations."</p>

	C-2 "The approval of this division of land provides no guarantee that use of water under the ground water exemption (RCW 90.44.050) for this plat or any portion thereof will not be subject to curtailment by the Department of Ecology or a court of law." (SC)

**RE: 202403415; SP-24-00011**

Bradley Gasawski:

Thank you for the opportunity to comment on the Notice of Application for the Lewis Short Plat. We have reviewed the application and have the following comments.

**Water Quality Program**

Dividing or platting a piece of property is often the first step in a proposed development. An NPDES Construction Stormwater Permit may be required if there is a potential for stormwater discharge from a construction site with disturbed ground. Ground disturbance includes all utility placements, and building or upgrading roads. The permitting process requires going through SEPA, developing a stormwater pollution prevention plan, submitting an application, and a 30-day public notice process. This may take 38-60 days. A permit and a stormwater plan are required prior to beginning ground-breaking activities. Please contact **Wendy Neet** with the Department of Ecology, (509) 571-6733, with questions about this permit.

**Water Resources Program**

In Washington State, prospective water users must obtain authorization from the Department of Ecology before diverting surface water or withdrawing ground water, with one exception. Ground water withdrawals for a project up to 5,000 gallons per day used for single or group domestic supply, up to 5,000 gallons per day used for industrial purposes, stock watering, and for the irrigation of up to one-half acre of non-commercial lawn and garden are exempt from the permitting process. Water use under the RCW 90.44.050 exemption establishes a water right that is subject to the same privileges, restrictions, laws and regulations as a water right permit or certificate obtained directly from Ecology. If you have any questions or would like to
