

CASCADE IRRIGATION DISTRICT

8063 Highway 10
Ellensburg, Washington 98926
509-962-9583

Overview

Cascade Irrigation District will require a \$50 per lot plat fee (*CID Resolution #01-2006*) as well as an engineered irrigation plan based on Cascade Irrigation District specifications (*CID Resolution #3-94 & CID Procedure #1 Standard Specifications for Irrigation Water Distribution Systems*).

The irrigation plan must include the point of entry of irrigation water, the system for provision of irrigation water to each parcel, a description of system proposed, and a description of provisions made including right of ways for the protection of other parcel within Cascade Irrigation District which are affected.

If pressurized pipe is proposed, it must include a sump, pump and the proposed system of water to the sump. (*CID Resolution #03-94 and CID Procedure #1 Standard Specifications for Irrigation Water Distribution Systems*).

Before Cascade Irrigation District can release or sign-off we require 1) approved, inspected and in place irrigation system, or 2) a signed Irrigation Facility Installation Agreement with respective bond covering proposed construction and costs, (*CID Procedure #1*) or 3) a variance. A variance is only by Cascade Irrigation District Board of Directors action after Board of Directors receives, reviews, and approves a formal petition for such.

If the plat is part of or wishes to become part of an existing LID operating within CID, they must complete all work to hook-up to the LID and pay the associated hook-up fees or a signed Irrigation Facility Installation Agreement with respective bond covering proposed construction and costs involved in such hook-up.

If installing a pressurized system not associated with an LID, the Developer will be required to form an owner's association to cover the operating costs and maintenance of the infrastructure. (*CID Resolution #2-2006*)
