Hello Bradley Gasawski,

Thank you for contacting the DAHP about above-referenced project. The project is in an area determined to be at Low- to Moderate- risk of containing archaeology according to the DAHP predictive model. However, the current project has a small footprint, therefore, the DAHP does not recommend direct archaeological supervision of the project but rather recommends that an Inadvertent Discovery Plan be followed.

Please note that this review reflects only the opinion of the DAHP, and any comment from Affected Tribes would be taken into consideration and could change our recommendation.

I have assigned these recommendations to DAHP Project Tracking Number 2025-02-00645. Please reference this number in any future communications about this project.

Feel free to contact me if you have questions about these recommendations.
