Dear Applicant,

Community Development Services is in receipt of the above referenced application. The application has been deemed complete and **preliminary approval** is hereby granted. Pursuant to Kittitas County Subdivision Code Chapter 16, please note the following items must be completed prior to final approval of the administrative segregation and must be submitted to our offices for review:

1. A metes and bounds legal description or recorded survey displaying legal descriptions and the new acreage and lot dimensions of each parcel must be submitted to our office prior to final approval.
2. Full year's taxes need to be paid for all tax parcel numbers per requirement of the Kittitas County Treasurer's Office. **Please contact this office when this is accomplished as the Treasurer's office will not be aware of your pending application.** No paper work or receipt is required just a phone call or an email will suffice.
3. Please refer to the attached Kittitas County Public Works and Kittitas County Fire Marshall comment memos for information regarding additional requirements.

If you have any further questions, please feel free to contact me at (509) 952-7079.

Re: Murphy (BL-14-00005)

Dear Mr. Watson:

After conducting a review of the above named project, I have the following comments:

- Ensure that boundary line adjustments do not infringe upon existing structures, to include propane tanks, etc.
- Ensure adequate access for fire apparatus. Any driveways or access points created based off the new lot configurations shall comply with Kittitas County Code 20.02.030.
- All future development must comply with the International Fire Code.

Any questions or concerns regarding fire service features may be directed to the Kittitas County Fire Marshal's Office at 509-962-7000.

Sincerely,

Brenda Larsen

DEPARTMENT OF PUBLIC WORKS

MEMORANDUM

TO: Jeff Watson, CDS
FROM: Christina Wollman, Planner III *W*
DATE: March 24, 2014
SUBJECT: BL-14-00005 Murphy

The Public Works Department has reviewed the Request for Boundary Line Adjustment and finds that it meets current Kittitas County Road Standards.

Our department recommends final approval with the following conditions:

- a. An approved access permit shall be required from the Kittitas County Department of Public Works prior to creating any new driveway access or performing any work within the county road right of way.
- b. Maintenance of driveway approaches shall be the responsibility of the owner whose property they serve. The County will not maintain accesses.
- c. Any further subdivision or lots to be served by proposed access may result in further access requirements. See Kittitas County Road Standards.
- d. Evidence of existing access and/or evidence of access to be created should be confirmed prior to sale of property.
- e. Access is not guaranteed to any existing or created parcel on this application.

Please let me know if you have any questions or need further information.

RE: Murphy BL-14-00005

After review of the proposed BLA, based on the information provided, there are no structures on the ownerships and all the land remains utilized in open area. It is stated in the narrative that currently there are no wells or septic systems on any of parcels that may be impacted by the movement of property lines within this ownership. It is also stated that water rights have been secured for all 3 parcels.

Please recommend for approval.

Please let me know if you have any questions or need further information.

Hi Jeff,

Looks to me like you have it exactly correct. I was told by staff that this was largely an administrative procedure. Is that correct? Once reviewed. I would bring in larger versions to be approved. Is that correct?

Thank you,

Mr. Murphy,

I am doing the initial processing of your boundary line adjustment application. In setting up the file for others to review I have generated a generalized depiction of the current parcels and proposed changes. The preliminary survey contains quite a bit of information which makes it difficult to distinguish the basic parameters of the proposal. Please review the attached and indicate to me whether I have captured your proposal in general terms. I will add what I have and send it out for comment for now; if I missed something or made an incorrect interpretation we can make the appropriate changes before a final determination.

Description for code **L2USCh**:

- L** System **LACUSTRINE**: The Lacustrine System includes wetlands and deepwater habitats with all of the following characteristics: 1. situated in a topographic depression or a dammed river channel; 2. lacking trees, shrubs, persistent emergents, emergent mosses or lichens with greater than 30% areal coverage; 3. total area exceeds 8 hectares (20 acres).
- 2** Subsystem **LITTORAL**: All wetland habitats in the Lacustrine System. Extends from shoreward boundary to 2 meters (6.6 feet) below annual low water or to the maximum extent of nonpersistent emergents, if these grow at depths greater than 2 meters.
- US** Class **UNCONSOLIDATED SHORE**: Includes all wetland habitats having two characteristics: (1) unconsolidated substrates with less than 75 percent areal cover of stones, boulders or bedrock and; (2) less than 30 percent areal cover of vegetation. Landforms such as beaches, bars, and flats are included in the Unconsolidated Shore class.
Subclass :

Modifier(s):

- C** WATER REGIME **Seasonally Flooded**: Surface water is present for extended periods especially early in the growing season, but is absent by the end of the growing season in most years. The water table after flooding ceases is variable, extending from saturated to the surface to a water table well below the ground surface.
- h** SPECIAL MODIFIER **Diked/Impounded**: These wetlands have been created or modified by a man-made barrier or dam which obstructs the inflow or outflow of water. The descriptors 'diked' and 'impounded' have been combined into a single modifier since the observed effect on wetlands is similar. They have been combined here due to image interpretation limitations. For clarification of the extent of impoundment see discussion of Lacustrine System limits.

BOUNDARY LINE ADJUSTMENT

(Adjustment of lot lines resulting in no new lots, as defined by KCC 16.08.055)

NOTE: If this Boundary Line Adjustment is between multiple property owners, seek legal advice for conveyance of property. This form does not legally convey property.

Please type or print clearly in ink. Attach additional sheets as necessary. Pursuant to KCC 15A.03.040, a complete application is determined within 28 days of receipt of the application submittal packet and fee. The following items must be attached to the application packet.

REQUIRED ATTACHMENTS

Note: a separate application must be filed for each boundary line adjustment request.

- ✓ Unified Site Plan of existing lot lines and proposed lot lines with distances of all existing structures, access points, well heads and septic drainfields.
- ✓ Signatures of all property owners.
- ✓ Narrative project description (include as attachment): Please include at minimum the following information in your description: describe project size, location, water supply, sewage disposal and all qualitative features of the proposal; include every element of the proposal in the description.
- ✓ For preliminary approval, please submit a sketch containing the following elements.
 1. Identify the boundary of the segregation:
 - a. The boundary lines and dimensions
 - b. Sub-Parcel identification (i.e. Parcels A, B, C or Lots 1, 2, 3, etc.)
 2. Show all existing buildings, well heads and drain fields and indicate their distances from the original exterior property lines AND from the proposed property lines. If you have a copy of an original survey, please attach. A new survey will not be needed until preliminary approval has been granted.
 3. Provide legal descriptions for each proposed tax parcel and identify by letter or number use on the map. Example: Parcel
 4. A – The North 75 feet of the West 400 feet of the Southwest quarter of the Southwest quarter of the Southwest quarter of Section 02; Township 20 North; Range 16 East; W.M.; Except the West 30 feet thereof for roads.

For final approval (not required for initial application): Legal descriptions of the proposed lots, or a recorded survey.
