RE: Laukala Conditional Use Permit, (CUP-08-07)

Dear Ms. Moynihan,

Thank you for the opportunity to comment on the above referenced project. The applicant proposes a recreational building with restroom and shower facilities, a dining area and a kitchen. Any water provided to the public for consumption must originate from a drinking water source that is approved. If the applicant wishes to serve greater than 25 people for more than 60 days per year the water system would need to be approved as a Group A – Transient Non-Community system and must be licensed and approved by the Washington State Department of Health. The individual to contact is Tom Justus at (509) 456-2453.

If you need any further information, please feel free to contact me. Thank you for your time.

Sincerely,

Holly Duncan
Environmental Health Specialist
