**Subject:** Yakima river campground

Hello Jeff,

I received the email below regarding a change in use of some property along the Yakima River, and thus the use of a BNSF Crossing. I would be interested in learning more about this development.

We will just want to verify the nature of the crossing (private or public) and make sure that it is sufficient enough to handle the type of traffic that will be crossing the tracks.

I appreciate your attention to this.

"There is a proposal on file with the Kittitas County Community Development Services for the construction and operation of a campground, launching area, and horse camp on the Yakima River (CU-13-0005), which enterprise would result in numerous vehicles (with trailers) crossing the BNR railway to reach the proposed site. It would seem to me that BNR may have concerns about this significant increase in use, and conversion of use from residential to commercial. If BNR has concerns or conditions that it would like to see on this proposal, I urge you to contact Jeff Watson of Kittitas County at [jeff.watson@co.kittitas.wa.us](mailto:jeff.watson@co.kittitas.wa.us) 509-933-8274"
