RE: CU-13-00005  
Carlson Conditional Use Permit

Dear Jeff;

While looking on the Kittitas County Planning web site, I have noticed that there are some purposed changes to the counties Comprehensive Plan and Code. These changes to Sec. 17.08.163 have a direct effect on my Conditional Use Permit application. By adding boat launches to commercial outdoor activities, this would allow us to apply for only the boat launch that was our original intent and not a campground. Since these are pending changes we would like to ask for an extension on our permit to December 31, 2013 so that the changes could become part of the Comprehensive Plan.

It seems that the word campground in our permit has caused a lot of misunderstandings in the community about what we are purposing to do. If we could have the option of only applying for the boat launch it would help us greatly.

Thank you for your consideration:

Kris Carlson
