7. Site Characteristics:
 - 7.1. North: Primarily forested land with private residences in a Rural-5 zoning designation.
 - 7.2. South: Primarily forested land within Forest & Range zoning. S.R. 970 and the Yakima River lie in this direction.
 - 7.3. East: Primarily forested land with private residences in a Forest & Range zoning designation.
 - 7.4. West: Low-intensity developed land in Forest & Range/Rural-5 zoning designations, which gives way to the City of Cle Elum.

Campgrounds/RV Parks are allowed with a conditional use permit under KCC 17.15.060.1. The conditional use permit criteria are examined in this decision.

10. Notice of Application: A Notice of Application (See Exhibit #'s 5 & 8) for the Guild RV Park Conditional Use Permit (CU-24-00007) was mailed and/or emailed to adjacent landowners located within 500 feet of any portion of the boundary of the proposal's tax parcels & applicable agencies. Notice was given to and published in the official newspaper of record for Kittitas County, and notice was posted to the Kittitas County Website on July 8, 2024, all in conformance with the Kittitas County Project Permit Application Process (Title 15A) (See Exhibit #'s 7 & 9). The comment period concluded on July 23, 2024.
11. RR-P4: A certain level of mixed uses in rural areas and rural service centers is acceptable and may include limited commercial, service, and rural industrial uses.
 - 11.1. Staff Consistency Statement: The proposed project is intended to provide an opportunity for tourists to camp in a rural, outdoor setting. The proposed campground/RV park will provide economic opportunities by creating possible jobs to local businesses that cater to tourists who wish to recreate and camp in the area, while keeping the rural character by not attempting excessive commercial development.
12. RR-G21: Preserve views of open space while providing opportunity for variety of rural densities.
 - 12.1. Staff Consistency Statement: The proposed project is within a forested area and is not proposing removal of on-site trees. The project will take place entirely below the canopy and will not have an impact upon views that are cherished as part of the rural character of upper Kittitas County.
13. This application is consistent with the goals, policies, and objectives of the Kittitas County Comprehensive Plan as outlined above.
14. A review by CDS staff indicated no streams or wetlands exist on the project site. The closest regulated stream from the proposal is approximately 650 feet away from the proposal, well beyond any required setbacks under KCC 17A.04.030. As the land is not covered by water and the proposal is already existing buildings less than 12,000 square feet with less than 40 parking spaces, SEPA is not required under WAC 197-11-800(1)(d) and KCC 15.04.090(1)(c).

17. In review of this proposal, it is important to consider the goals and policies of the comprehensive plan, applicable county code, public and agency comments, any identified environmental concerns and state and federal requirements. Identified below is the Hearing Examiner's analysis and consistency review for the subject application.
18. Consistency with the Comprehensive Plan:
- 18.1. The proposal is consistent with the goals and policies of the Kittitas County Comprehensive Plan. As referenced above in Section V of this staff report, the following Comprehensive Plan goals and policies apply to this proposal: RR-G21, RR-P4.
19. Consistency with the provisions of KCC 17.60A, Conditional Uses: KCC 17.60A.015 provides the following review criteria to be considered in a conditional use analysis:
- 19.1. The proposed use is essential or desirable to the public convenience and not detrimental or injurious to the public health, peace, or safety or to the character of the surrounding neighborhood.
- 19.1.1. Applicant Response: "The RV park is essential for affordable camping and temporary housing." (See Exhibit #11)
- 19.1.2. Hearing Examiner Finding: Campgrounds and RV parks are allowed by conditional use permit within the Rural 5 zone. The proposal is located on approximately 4.01 acres and the facility will consist of existing structures. The property is located near a few residences and forest lands. CDS does not anticipate the proposed use as conditioned will be detrimental or injurious to the public health, peace, safety, or to the character of the surrounding neighborhood.
- 19.2. The proposed use at the proposed location will not be unreasonably detrimental to the economic welfare of the county and that it will not create excessive public cost for facilities and services by finding that:
- 19.2.1. The proposed use will be adequately serviced by existing facilities such as highways, roads, police and fire protection, irrigation and drainage structures, refuse disposal, water and sewers, and schools; or
- 19.2.2. The applicant shall provide such facilities; or
- 19.2.3. The proposed use will be of sufficient economic benefit to offset additional public costs or economic detriment.

- 19.2.3.1. Applicant Response: "It is adequately serviced by existing facilities such as highways, roads, police and fire protection, irrigation and drainage structures, refuse disposal, water, septic and schools, all of which are adequate." (See Exhibit #11)
- 19.2.3.2. Hearing Examiner Finding: Staff has confirmed with Kittitas County Public Health and the State Department of Health that the existing well can handle this facility, and the road network can handle daily traffic. The site is within Fire District #7.
- 19.3. The proposed use complies with relevant development standards and criteria for approval set forth in this title or other applicable provisions of Kittitas County Code.
- 19.3.1. Applicant Response: "To be used for affordable camping and temporary long-term housing. The proposed use complies with the relevant development standards and criteria for approval set forth in this title or other applicable provisions of Kittitas County Code." (See Exhibit #11)

- 19.4. The proposed use will mitigate material impacts of the development, whether environmental or otherwise.
- 19.4.1. Applicant Response: "The proposed use will mitigate material impacts of the development, whether environmental or otherwise." (See Exhibit #11)
- 19.4.2. Hearing Examiner Finding: The site has no new development proposed and is outside all critical area buffers. Impacts from aspects such as traffic is mitigated through conditions.
- 19.5. The proposed use will ensure compatibility with existing neighboring land uses.
- 19.5.1. Applicant Response: "The proposed use will ensure compatibility with existing neighboring land uses." (See Exhibit #11)
- 19.5.2. Hearing Examiner Finding: There are few residences in the area and any impacts should be minimal to the neighboring land uses. The Hearing Examiner has conditioned the proposal to meet all noise ordinances in County Code.
- 19.6. The proposed use is consistent with the intent and character of the zoning district in which it is located.
- 19.6.1. Applicant Response: "The proposed use is consistent with the intent and character of the zoning district in which it is located." (See Exhibit #11)
- 19.6.2. Hearing Examiner Finding: The proposed project is located in Rural 5 zoning. The Rural 5 (R-5) zone is an area wherein rural lifestyles are dominant characteristics. The purpose and intent of the Rural-5 zone is to provide areas where residential development may occur on a low density basis. A primary goal and intent in siting R-5 zones will be to minimize adverse effects on adjacent natural resource lands. Kittitas County Comprehensive Plan and Zoning Code have allowed campgrounds and RV parks in Rural 5 zones in KCC 17.15.080(1) with a conditional use permit. Kittitas County believes that campgrounds and RV parks are part of the rural lifestyle and for people to enjoy the rural character of the county.
- 19.7. For conditional uses outside of Urban Growth Areas, the proposed use:
- 19.7.1. Is consistent with the intent, goals, policies, and objectives of the Kittitas County Comprehensive Plan, including the policies of Chapter 8, Rural and Resource Lands;

- 19.7.2. Preserves “rural character” as defined in the Growth Management Act
- 19.7.3. Requires only rural government services; and
- 19.7.4. Does not compromise the long-term viability of designated resource lands.
- 19.7.4.1. Applicant Response:
- 19.7.4.1.1. “yes
- 19.7.4.1.2. yes
- 19.7.4.1.3. yes
- 19.7.4.1.4. yes”
- 19.7.4.2. Hearing Examiner Finding: The proposal is consistent with the Kittitas County Comprehensive Plan. The use will not conflict with rural character, requires only rural government services and will not compromise resource lands.
