RE: County Approval For  
Surface Mining (SM-6)  
Quarry Site QS-S-234  
DNR Permit No. 10054

Dear Debbie,

Attached for your signature is the SM-6 Form for Quarry Site QS-S-234.

This quarry will be used as a materials source for future D.O.T. construction projects.

The ultimate reclamation plan has been revised to meet the current D.N.R. standards.

The Conditional Use Permit was issued to us November 13, 1993.

The SM-6 Form signed by the County on December 27, 1993 needs to be updated to a current SM6 Form to meet the requirements of the D.N.R.

The Declaration Of Non-Significance was approved November 8, 1982. The addendum to the existing document was approved July 7, 1993.

Please complete your portion of the SM-6 Form and return the original to:

Washington State Department of Transportation  
2809 Rudkin Road, Union Gap  
P.O. Box 12560  
Yakima, WA 98909-2560  
Attn: Bill Pickering/Project Development

I will forward the signed SM-6 Form to the D.N.R. Regional office.

Sincerely,

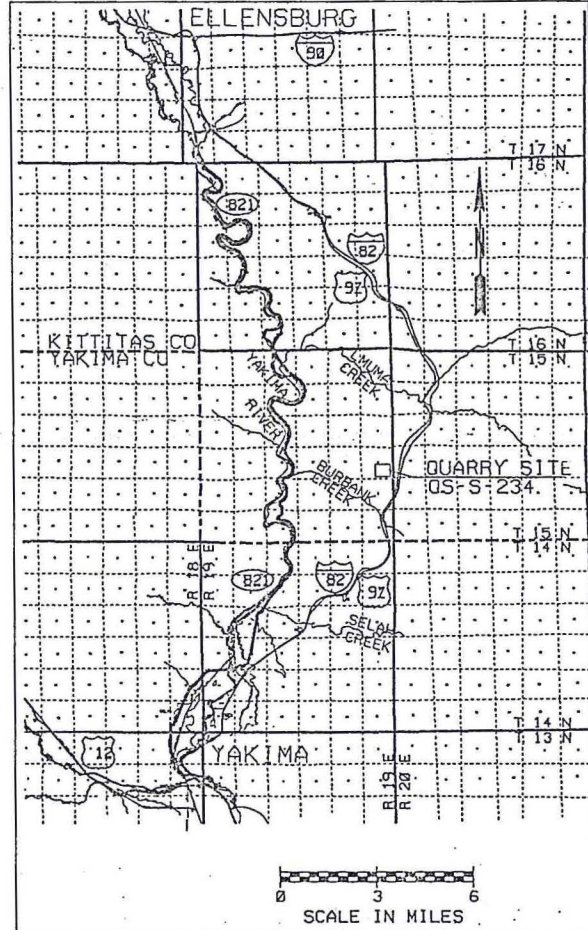

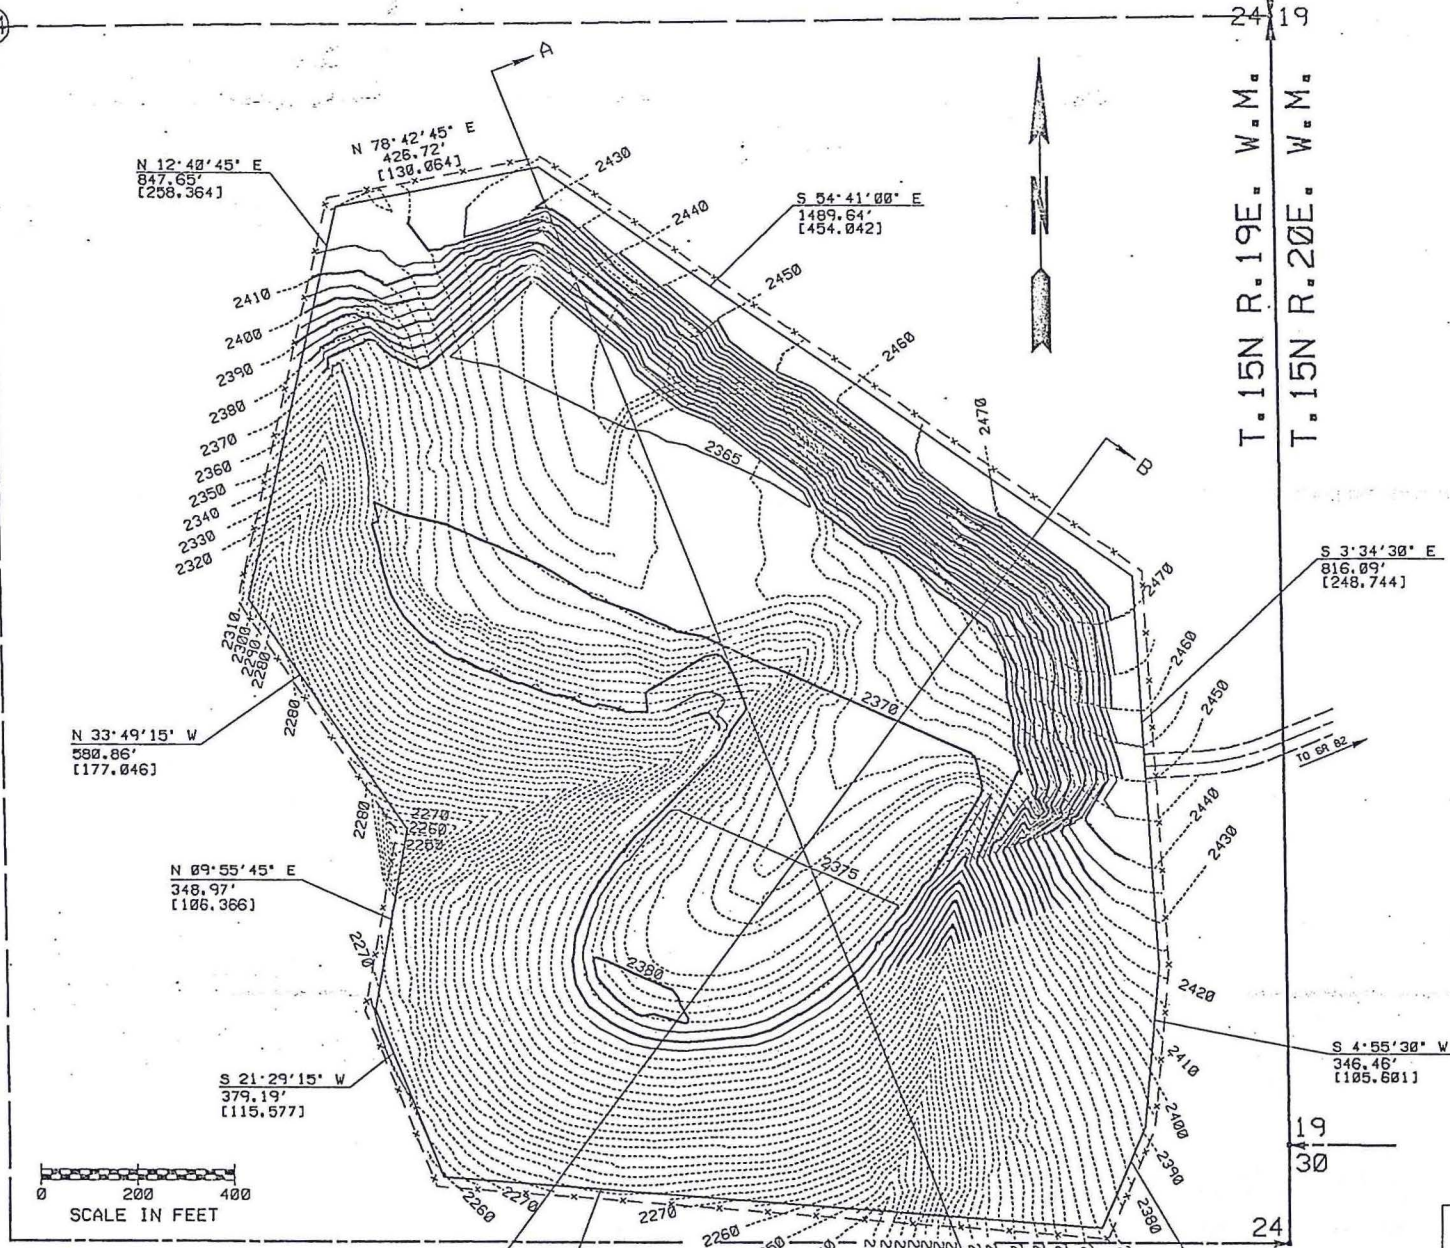

A handwritten signature in black ink that reads "Bill Pickering". The signature is written in a cursive style with a long, sweeping horizontal stroke at the end.
