Hi Chace,

The proposed project area has been revised to remove the potential future house, and now more closely aligns with Mr. Allen's previous application (PSA-23-00113). For that application, I had recommended an inadvertent discovery plan (IDP) rather than a cultural resources survey. I am revising my recommendation for SX-23-00013 to an IDP.

Please note that this revised recommendation reflects only the opinion of DAHP. Any interested tribes may have different recommendations.

Feel free to contact me with any questions.

All the best,

Sydney Hanson, MA (she/her) | **Local Government Archaeologist**

External Email

Good morning Sydney,

The applicant for SX-23-00013 Allen has updated their site plan to reduce the overall footprint of the project (removing a potential future house). I have attached the new site plan to this email. At your earliest convenience, please review the updated site plan and provide comment.

Thank you for your time!

Chace Pedersen

Subject: SX-23-00013 Allen - Request for Shoreline Review

External Email

Parcel# 11334

Good morning,

You are receiving this request for shoreline review with an associated 15-day comment period because this application (Shoreline Exemption Permitting, SX-23-00013 Allen) is proposing a project within shoreline jurisdiction that is not exempt from cultural resources review pursuant to Kittitas County SMP 5.1(B)(1)(a). The proposed project is to build a shop with living space and the future construction of a residential home with covered porch. In accordance with the settlement agreement between the Yakama Nation and Kittitas County, Kittitas County Resolution No. 2018-195 and the Department of Ecology Final Approval (letter dated 1/14/19, effective 1/28/19) of the County's amended Shoreline Master Program, Kittitas County is hereby requesting comments regarding the proposed project.

This request is based off the following amendment to Kittitas County SMP 5.1(B) as shown below:

B. Regulations

1. *Project Approval Requirements.* Prior to issuing a permit, exemption, or other approval for a proposed project in a shoreline area, the County shall determine whether or not a cultural resources review or archaeological survey shall be required under this Section 5.1(B)(1).
 - a. *Exceptions.* No cultural resources review or survey shall be required under this Section 5.1(B)(1) where the project applicant can demonstrate one or more of the following conditions is met:
 - i. The project or use does not include any ground disturbance. Projects that require the insertion of structural elements, but which do not require any excavation and create no spoil piles, shall be considered non-ground-disturbing for purposes of this Section (e.g. driving T-posts, planting tree seedlings with a hoedad).
 - ii. The project is limited to the installation of infrastructure entirely within the same area as an existing project or development.
 - iii. The project's entire three-dimensional area of proposed ground-disturbance is located within previous fill or previously disturbed earth.
 - iv. A professional archaeologist has surveyed the entire project area within the last ten (10) years, and the survey report(s) show that no cultural, archaeological, or historic resources were found.
 - b. *Cultural Resources Review.* The County shall provide electronic notice and a fifteen (15) day comment opportunity to DAHP and affected Native American tribes for all proposed projects in shoreline areas which are not excluded under Section 5.1(B)(1)(a) above.
 - i. When applicable, the above notification requirement will be included in the Preliminary Site Analysis process.
 - ii. Where the proposed project is already subject to a comment period through shoreline permitting and/or SEPA review, this comment period shall be run concurrently.
 - iii. For shoreline projects that fall under a shoreline exemption permit and have no notification requirement, if not already completed through the Preliminary Site Analysis process, the above notification and cultural resources review requirements will occur prior to the issuance of an exemption permit.

Kittitas County will not act on the attached request until the end of the 15-day comment window. Please respond to this email with any comments regarding this proposal no later than end of business day **June 9, 2023.**
