PROJECT DESCRIPTION

The applicant is proposing construction of a single-family residence to replace a residence destroyed by fire.

THIS DEVELOPMENT IS EXEMPT PURSUANT TO WAC 173-27-040(2)(b), and KCC 17B.07.030(2)(b): A SHORELINE SUBSTANTIAL DEVELOPMENT PERMIT IS NOT REQUIRED FOR THIS PROJECT.

THE FOLLOWING CONDITIONS ARE REQUIRED PURSUANT WAC 173-27:

1. All work shall substantially conform to the specifications of the site plan and application materials submitted to Kittitas County Community Development Services by Andrew Jacob Hammons on February 5, 2024.
2. Except as exempted in Section KCC 14.05.060 no grading or filling upon a site involving more than one hundred (100) cubic yards shall be performed without a grading permit from the County Engineer or Public Works designer (KCC 14.05.050). An application for grading in excess of five hundred (500) cubic yards shall be accompanied by an engineered grading plan (KCC 14.05.080).
3. Issuance of this shoreline exemption permit does not authorize access onto private property or waive other jurisdictional agency requirements. The permittee shall obtain consent from respective property owner(s) prior to entering onto private property and shall obtain and comply with all applicable federal and state permit requirements in completing the proposed development.
4. The activity proposed on this property is within the 100-year floodplain. All activities within the floodplain require a floodplain development permit. All construction, including structures that are exempt from a building permit, must follow the guidelines within KCC 14.08. Structures may be subject to mandatory flood insurance purchase requirements.
5. Should ground disturbing or other activities related to the proposed project result in the inadvertent discovery of cultural or archaeological materials, work shall be stopped in the immediate area and contact be made with the Washington State Department of Archaeology and Historic Preservation (DAHP) and the Confederated Tribes of the Colville Reservation. Work shall remain suspended until the findings are assessed and appropriate consultation is conducted. Should human remains be inadvertently discovered, as dictated by Washington State RCW 27.44.055, work shall be immediately halted in the area and contact made with the coroner and local law enforcement in the most expeditious manner possible.
6. Issuance of this shoreline exemption will not create liability on the part of Kittitas County or any officer or employee thereof, for any on or off-site injury or damages that may result from this project.

CONSISTENCY ANALYSIS

A shoreline substantial development permit is not required for the project as described due to an exemption allowed pursuant to WAC 173-27-040(2)(b), KCC 17B.07.030(2)(b). Although exempted by statute/rule, such exempt developments must comply with all other regulatory requirements of the Shoreline Management Act and Kittitas County Shoreline Master Program.

- Nothing in these regulations shall obviate any requirement to obtain any permit, certificate, license, or approval from any state agency or local government (See Revised Code of Washington 90.58.360).
- The development will comply with all applicable provisions of Kittitas County Code.
- No development shall take place within 95' of the Ordinary High-Water Mark.

Approved by: Bradley Gasawski, Planner I
