Chace:

The Department of Health (DOH) Office of Drinking Water (ODW) has reviewed and has the following comments:

- For groundwater use for these two projects, in addition to consulting with Kittitas County for local mitigation requirements, the applicant should consult with the Department of Ecology, because the groundwater use for the subdivided property appears to fall under the definition of a “project”. As a “project”, the total groundwater use, for both properties, needs to be evaluated as a singular total.
- Because it is two properties, with an expectation that it would involve single developments on each property, the groundwater use for drinking water would be either “private” or “Group B”, both of which are the administrative responsibility of Kittitas County Health.

If anyone has any questions or concerns, please contact DOH, thanks,
