Hi Zach,

Thanks for the opportunity to review and comment. Some of the application materials reference typical residential use, potential event center, up to 4 homes, and up to 40 vehicular trips per day. It's unclear what the project is and whether there will be subsequent projects to review once the improved driveway is approved. If additional developments or subdivisions are planned, all components of the project should be reviewed concurrently. This project is difficult to provide meaningful comments for because there are inconsistencies for what the driveway will serve and there are no plans to review. Without this information, we don't have specific recommendations or concerns for the protection of Fish and Wildlife Habitat Conservation Areas because our understanding is that the impact of the road will be relatively minor in nature with less than ½ acre of forest disturbed.

Thank you,
Jen
